## RESEARCH REPORT PEER REVIEW FORM

Name of Reviewer	Date
Project Reviewed	
After reading a research report written by other students, answer the following questions. Remember to keep your answers friendly and constructive.	
1. What was a particular strength in this experim	ental design?
2. Do you agree with the conclusions? Do they appea	rr to be supported by the results of the experiment?
3. What suggestions can you make for improving	this experiment or report?
